

Fort Wayne Peregrine Falcon Project

Since 1996 when the first peregrine falcon chicks hatched, the following names have been given to the chicks when the identification bands are placed on their legs by the Indiana Department of Natural Resources. Names listed below will not be used again and should not be submitted for consideration.

TOTAL OF 73 BANDED CHICKS SINCE 1996

Parents – Moxie (female – band # 99/E) – Hacked from Canton, OH, April 2011
Jamie (male – band # 92/D) – Hacked from Port Sheldon, MI, 2010

2024: Storm - female (U36) - Tom - male (U37) - River - male (U49) and Cindy - female (U48). After fledging, Tom was found deceased on the ground approximately 200ft from the building, on 6-5-24 and is currently in the possession of Soarin' Hawk Raptor Rehabilitation Center and will be mounted for educational use.

2023: Marshmallow – female (U03) - state bands on right leg instead of left
Squirt – male (U04) and Stewart - male (U05) **+ 1 egg un-hatched**

2022: Nova - female (K67) and Kiri - female (K68) **+ 2 eggs un-hatched**

2021: BeeGee - female (K50) **+ 3 eggs un-hatched**

2020: Bolt - male (S04), Unity - male (S05), Carla - female (S07) and Artemis - male (S12). Artemis (S12) was found deceased, from unknown causes, on the roof of the AEP tower on 7-22-20.

2019: Jojo (M49), Skittles (M50) and Coco (M51) all females and Flash (M52) male. Skittles, (M50), died in the nest box from unknown causes on 6-2-19.

2018: Ranger (64Y) and Glenn (65Y) (for John Glenn, astronaut on Mercury 7 & first to orbit the earth) both males; and Phoebe (66Y) female; (Greek for “shining one”). After fledging, Phoebe was found deceased on the ground approximately 150ft from the building, on 6-9-18 and is currently in the possession of Soarin’ Hawk Raptor Rehabilitation Center and will be mounted for educational use.
+ 1 egg un-hatched

2017: Zazu & Thunder (male); and Mist (female) **+ 1 egg un-hatched**

2016: “Gus” (Virgil “Gus” Grissom) & Maggie (Margaret Ringenberg)
+ 1 egg un-hatched

2015: Captain Falcon (male); Talon, T. Swift & Air-ica (all female)

2014: Magic, Cheetah and Abbett

2013: Skyler, Soara, Maverick, Electra

** Note ** Freedom was found deceased, at age 19, in 2013. She was mounted and is currently in the possession of Soarin' Hawk Raptor Rehabilitation Center for educational use.

2012: No eggs
2011: No eggs
2010: No eggs
2009: No eggs
2008: No eggs

1996: Orion, Amelia

DECENDANTS OF MOXIE AND JAMIE

City County Building Nest Box – South Bend, IN

Parents - Flash (male - band # M52) Hacked from Fort Wayne, IN April 2019
Unbanded female

2024: The chicks were not named nor banded this year. There were 2 chicks that hatched and fledged + 3 egg un-hatched.

2023: Elaine – female (U9) and Skip – male (U10) + 1 egg that hatched and the chick did not survive + 2 eggs un-hatched.

DECENDANTS OF MOXIE AND JAMIE

Cathedral of Learning nest box on the campus of the University of Pittsburgh,
Pittsburgh, PA

Parents - Carla (Female - band # S07) – Hacked from Fort Wayne, IN April 2020
Ecco (Unbanded Male)

2024: Pennsylvania does not name nor publish their band numbers. However, Soarin' Hawk does have the band information. What we can share, is that the bands are black over green and there was 1 male and 1 female that was banded and fledged + 1 egg that hatched but the chick did not survive + 1 egg unhatched.
